The German Retreat at the Somme

Is it the beginning of a gradual withdrawal from France, or does it foreshadow a new and powerful German attack?

FRANK H. SIMONDS

was at the headquarters of the French commander whose troops faced the Grandcourt salient on the day the German retirement

In next Sunday's Tribune Mr. Simonds graphically describes this retreat and analyzes the causes leading up to it. What is more important, he tells what the next move of the Kaiser's is likely to be.

Fresh from the war zone, Mr. Simonds is now writing with a clearer conception of European conditions than marked even his own masterly articles in the past.

If you want to really know what's going on in the Great War, follow Simonds in The Tribune.
